

**When Searching for Reliable Quality and Consistent On-Time Service for Your Outside Machining Requirements, Trust Just In Time.**

**“Custom/High Quality Machining is what we provide at JIT”**

JIT is a specialty supplier of domestic forged Companion Flanges, OFU's, Spacer Plates, Bleed Rings, and other critical parts required by the Natural Gas Measurement and control industries.

JIT is also the leading supplier of Fan and Air handling shafts used by Air Cooled Heat Exchanger Manufactures. “We can key way and machine all sizes and shapes of shafting”.

JIT is committed to meeting your highest expectations, whether it is supplying a single emergency item or supplying regular production runs- the entire “Just in Time” team is dedicated to delivering your orders on time and to your specifications.

**JIT has a Commitment to Quality**

Our determination to 100% satisfaction is summed up by our internal covenant, “We will not ship a part we cannot validate”.

**We Build Confidence One Order at a Time**

Whether it's supplying a single emergency item or providing a range of ongoing products and services, the JIT team is dedicated to delivering your order – always when you need it, and Just in Time and not just when you can get it.

**Always Reliable**

We work hard to maintain our reputation for JIT deliveries and meeting our customer's standards on each order. On every project, we consider every detail because we are dedicated to gaining and keeping our customers' confidence by meeting every specification – Just in Time.

**Always Committed**

At JIT, every employee is committed to recognizing your expectations. Once we have made a commitment, we deliver it each and every time with all possible effort. Our quality, service and competitive pricing will be the standard you can expect.

## Special Services Offered and Available Through JIT and Our Supply Chain Partners.

### Machining

- CNC Lathe: .500" > 26" OD Turning
- CNC Milling: 4th Axes
- Shaft Production: Keyways, Snap Ring grooves, Drill & Tap
- Boring: up to 22"

### Testing Services Provided by Tulsa Gamma Ray • 918-585-3228

- NDT
- Destructive Testing Services
- Heat Treating Services
- Multi-Level Certification Training

### Centerless Grinding

- Close Tolerances C.G.
- TG & P

### Fabrication Services

- Mig Welding
- Tig Welding
- Press Fitting

### Castings

- Special Design for Special Shapes
- Fully Machined
- Turn-Key

### Managed Machined Parts Inventory Programs

- Customer Supplied Materials/Machined
- Turn Key- Materials and Machining Supplied and Scheduled
- Kan Ban Programs

### Measurement and Control Products

#### Sales Contact: Cherokee Measurement & Control

918-446-1611 • [www.cherokeetulsa.com](http://www.cherokeetulsa.com)

- Companion Flanges ANSI 16.5
- OFU Flanges ANSI 16.36
- Spacer Plates-Carbon Steel and Stainless Steel
- All ANSI ratings through 2500# ANSI
- Standard and Special Tolerance Bores available

### Drive Component Packages Provided by The Unlaub Company

918-583-5104 • [www.unlaub.com](http://www.unlaub.com)

- Full drive Assemblies
- Motors
- Bearings
- Bushing
- Shafts
- Belts
- Sheaves
- Hubs
